## Who We Are

### CHASSIS PLANS

- Chassis Plans designs, fabricates and integrates standard and customized high-performance computing platforms and LCD monitors for military, industry, and commercial applications.
- Using COTS components, Chassis Plans provides solutions for customers who need reliable systems that will operate in a variety of harsh conditions and who require revision control and hardware consistency for multi-year programs.
- Chassis Plans is an ITAR Registered and SBA-certified small business that has been operating in Southern California for over a decade.

### YOUR CONFIGURATION. ONE PART NUMBER.

- It's our mission to make your life easier, so our Sales Engineers will walk you through the ordering process, making sure the details are resolved and that you get what you need.
- One part number means easier procurement and less paperwork for you.
- Dedicated Sales and Program Managers.
- Last time buy opportunities for end-of-life components.

# COTS Rugged Industrial Grade 1U Rackmount Keyboard Video Monitor

## Screen Size 17", Side-Access Keyboard and LCD Monitor

Assembled in the USA  
ISO 9001:2008 Certified  
ITAR Registered

The CCIR-17 is a unique side access, space efficient, industrial grade, high performance 1U rackmount clamshell LCD keyboard drawer offering a 17-inch display. The unique side access feature minimizes required aisle space by placing the operator next to the rack instead of positioned in the aisle. There is no other 1U LCD keyboard which offers this space saving feature (patent pending).

Specifications for our standard products can always be customized to fit your unique application requirements.

## Power Alternative

Chassis Plans' 2U-5U rackmount computer systems are designed with a removable back plate that allows a 12V power cord to run from the computer's power supply to a display or keyboard video monitor. This optional feature, the Exterior Power Jack, is available for this monitor.

By running the display with the computer systems' power supply, this Exterior Power Jack option can provide many benefits:

- Reduction in the number of required cables
- Elimination of additional equipment, i.e., a power brick
- Reduction in total system weight and cost

To enjoy these benefits, power up your new display with a Chassis Plans' server.
