COTS Rugged Industrial Grade 1U Rackmount Keyboard Video Monitor

Screen Size 15", Specialty Display for Extreme Temperatures and Exceptionally Bright Environments

*Assembled in the USA
ISO 9001:2008 Certified
ITAR Registered*

Our CCI-15 high-bright display is a high-performance 1U rackmount clamshell LCD keyboard drawer offering a 15-inch transfective display with LED backlighting. The combination of transfective technology, AR filtering and very high brightness makes for an incredibly easy to see display in virtually any lighting condition, including direct sunlight. It also has exceptional strength and is relatively low weight.

Specifications for our standard products can always be customized to fit your unique application requirements.

Power Alternative

Chassis Plans' 2U-5U rackmount computer systems are designed with a removable back plate that allows a 12V power cord to run from the computer's power supply to a display or keyboard video monitor. This optional feature, the Exterior Power Jack, is available for this monitor.

By running the display with the computer systems' power supply, this Exterior Power Jack option can provide many benefits:

- Reduction in the number of required cables
- Elimination of additional equipment, i.e., a power brick
- Reduction in total system weight and cost

To enjoy these benefits, power up your new display with a Chassis Plans' server.
